Certificate Course in ARCHICAD

Overview

ArchiCAD by Graphisoft is a building information modeling (BIM) solution designed for architects, designers, interior designers and urban planners. Archicad is a building information management system with tools for designing, visualizing, and delivering building plans. ArchiCAD offers integration with different construction systems, such as Revit, AutoCAD, Navisworks, Tekla BIMsight and Allplan Engineering systems.

Course Duration: 40 Hrs. (Theory- 20hrs + Practical - 20hrs)

Course Highlights

- To create BIM based building designs
- To create conceptual modelling.
- To present the visualization of buildings.
- Automatic Drawing Generation
- Solibri Model Checker
- To calculate Energy Requirements and cost for a Model

Who Can Enroll

- Pursuing diploma or engineering in Civil & related streams.
- Completed diploma or engineering in Civil & related streams
- Civil Engineers
- Architects
- Design Engineers
- Interior Designers

Deliverables:

- Student version of Software
- Internationally acclaimed e-course ware
- International Certificate
- Recording of the class for future reference in case of an online class.
- Post Training Support by the Trainer
